Mystic Pharmaceuticals Receives Notices Of Allowance From Japan and China on Drug Delivery Platform Technologies

Innovation Of Patient-Centric Pharmaceutical Products For Global Markets

AUSTIN, TX – October 1, 2013 (Businesswire) -- [Mystic Pharmaceuticals](#), Inc., an integrated specialty pharmaceutical company, announced today it has received Notices of Allowance from the China Patent Office for its “Deep Draw Container Forming Method” (invention number ZL200880106965.1) and the Japan Patent Office for its “Combination Unit Dose Dispensing Container” (application number 2010-508588) patent applications. Mystic’s [VersiDoser® and VRx2™](#) delivery technologies are used in combination with drugs and biologics to develop therapeutics for the treatment of ocular, CNS, neurodegenerative and infectious diseases affecting large global population.

Timothy Sullivan, Mystic’s President and CEO, stated that, “Over the past decade Mystic has innovated packaging and delivery technologies that enable the development of patient-centric pharmaceutical products. Japan and China along with several other global markets are high priority strategic opportunities for Mystic enhanced pharmaceutical drug/device combined products. These latest international patents reflect our long term commitment to developing the global market opportunity for our technology and products.” Mystic’s VersiDoser® and VRx2™ delivery platforms utilize novel unit dose packaging and patient-centric dispensers that can be configured for precision self-administration of therapeutics for ophthalmic, systemic nasal, nose to brain, sublingual, oral and dermal applications.

Mystic’s delivery platform technologies enable pharmaceutical and biotech manufacturers to develop patient-oriented products that can extend or establish market exclusivity and competitive differentiation for new or existing drugs and biologics. The shift to patient-centric products benefits the consumer through improved compliance and health outcomes while building brand value for the pharmaceutical manufacturer. Mystic’s delivery platforms and products are designed to meet the diverse demands of consumers and pharma manufacturers in the globally competitive market.

About Mystic Pharmaceuticals, Inc.

Mystic Pharmaceuticals™ is an integrated specialty pharmaceutical company based in Austin, Texas. Mystic provides patient-centric pharmaceutical products and delivery technology and for pharmaceuticals, biopharmaceuticals and biologics for intranasal, ophthalmic, sublingual, dermal and otic applications. Mystic combines its novel delivery systems with pharmaceuticals and biologics under development by Mystic and its partners, to meet the expanding global market demand for healthcare products that are safer, simpler to use and cost effective.
