Mystic Pharmaceuticals to Present at the 2nd Annual Partnerships In Drug Delivery Conference In Boston

AUSTIN, TX – September 20, 2012 – Mystic Pharmaceuticals, Inc. will present at the “Partnerships In Drug Delivery Conference” at the Boston Park Plaza Hotel on October 1-2, 2012. The annual conference brings together senior pharma and biotech executives with some of the most innovative drug delivery technology and drug delivery formulation companies to provide a thorough overview of the latest technologies and products designed to enhance patients’ quality of life, improve therapies and extend the life cycle of a drug.

Mystic CEO Timothy Sullivan will present on the topic of “Patient Oriented Delivery Devices for Self-Administration Of Drugs and Biologics” on October 1st. Conference speakers include, Dr. Robert Langer, Koch Institute Professor at MIT and pharma industry thought leaders from a wide range of emerging innovator companies and large pharmaceutical manufacturers including Pfizer, Allergan, Roche, J&J, Mannkind and Merck.

Sullivan will provide an overview of Mystic’s VersiDoser® and VRx2™ delivery platforms for drugs and biologics with a primary focus on systemic nasal and ophthalmic delivery. He will discuss Mystic’s recently patented manufacturing technology for rapid aseptic fill fit finish of drugs and biologics in a novel unit dose blister system.

The conference is organized by The Conference Forum and will be held at the Boston Park Plaza Hotel in Boston, Massachusetts on October 1-2, 2012. For additional information visit <http://theconferenceforum.org>

About Mystic Pharmaceuticals, Inc.

Mystic Pharmaceuticals™ is an integrated specialty pharmaceutical company based in Austin, Texas. Mystic provides precision unit dose delivery solutions for pharmaceuticals, biopharmaceuticals and biologics for intranasal, ophthalmic, sublingual, and otic applications. Mystic combines its novel delivery systems with pharmaceuticals and biologics under development by Mystic and its partners, to meet the expanding global market demand for healthcare products that are safer, simpler to use and cost effective.
